# AUTISM ORGANIZATIONS

- The mission of The Daniel Jordan Fiddle Foundation, an all-volunteer-run, national autism organization is to develop and award grants to residential, recreational, vocational, educational and family programs that provide suitable and sustainable avenues for adolescents and adults with Autism to participate in community life. Our expertise encompasses developing, identifying, supporting and supervising exemplary programs that honor the individuality of each person. The Daniel Jordan Fiddle Foundation is a leading national and state advocate on issues affecting adults with Autism and their families and is the only national autism organization to specifically focus on program development for adults throughout the United States. For more information visit: <http://www.djfiddlefoundation.org>
- ASA, the nation's leading grassroots autism organization, exists to improve the lives of all affected by autism. We do this by increasing public awareness about the day-to-day issues faced by people on the spectrum, advocating for appropriate services for individuals across the lifespan, and providing the latest information regarding treatment, education, research and advocacy. For more information visit [www.autism-society.org](http://www.autism-society.org)
- ASPEN provides families and individuals whose lives are affected by Autism Spectrum Disorders (Asperger Syndrome, Pervasive Developmental Disorder-NOS, High Functioning Autism), and Nonverbal Learning Disabilities with education about the issues surrounding the disorders, support in knowing that they are not alone, and in helping individuals with ASD's and NLD achieve their maximum potential. Advocacy in areas of appropriate educational programs, medical research funding, adult issues and increased public awareness and understanding. For more information visit [www.Aspennj.org](http://www.Aspennj.org)
- At Autism Speaks, our goal is to change the future for all who struggle with autism spectrum disorders. We are dedicated to funding global biomedical research into the causes, prevention, treatments, and cure for autism; to raising public awareness about autism and its effects on individuals, families, and society; and to bringing hope to all who deal with the hardships of this disorder. We are committed to raising the funds necessary to support these goals. Autism Speaks aims to bring the autism community together as one strong voice to urge the government and private sector to listen to our concerns and take action to address this urgent global health crisis. It is our firm belief that, working together, we will find the missing pieces of the puzzle. Autism Speaks. It's time to listen. For more information visit [www.autismspeaks.org](http://www.autismspeaks.org)
- Autism New Jersey (formerly known as COSAC) provides information and advocacy, services, family and professional education, and consultation. COSAC encourages responsible basic and applied research that may lessen the effects of, and potentially prevent, Autism. COSAC is dedicated to ensuring that all people with Autism receive appropriate, effective services to maximize their growth potential and to enhancing the general public's overall awareness of Autism. For more information visit [www.NJcosac.com](http://www.NJcosac.com)
- SPAN ensures that all families in New Jersey have the resources and support needed to aid their children in becoming fully participating and contributing members of our communities and society. The mission of the Statewide Parent Advocacy Network is to empower and support families and inform and involve professionals and others interested in the healthy development and education of children and youth. SPAN's foremost commitment is to children and families with the greatest need due to disability; poverty; discrimination based on race, sex, language, immigrant, or homeless status; involvement in the foster care, child welfare, or juvenile justice systems; geographic location; or other special circumstances. For more information visit [www.Spannj.org](http://www.Spannj.org)

# ADULT SERVICES, HOUSING AND EMPLOYMENT

Adult Medical Day Care Centers

Provides independent living with skilled medical assistance services available for young adults diagnosed with DD and ASD (Transportation provided)
